

Simplifying Global Trade Your Trusted IOR/EOR Partner

Expanding your business across borders? TLS Technologies ensures seamless trade compliance, customs clearance, and IT hardware deployment across 180+ countries.

TECHNOLOGIES SPECIALIZATION

Importer & Exporter of Record (IOR/EOR)

We take legal responsibility for customs compliance and import/export regulations so you can ship globally without a local entity.

IT & Tech Deployment Solutions

Seamless global shipping of IT hardware, data centre equipment, and telecom infrastructure.

E-Waste Management & IT Asset Disposition (ITAD)

Secure disposal of outdated IT equipment in compliance with environmental regulations.

Customs Clearance & Trade Compliance

Avoid delays and penalties with our pre-approved, first-time customs clearance process.

Warehousing & Logistics Support

Secure, globally positioned warehousing to store and distribute IT & telecom hardware efficiently.

RMA & Warranty Replacement

TLS manages global returns and warranty replacements for IT equipment, in coordination with OEMs.

WHY CHOOSE TLS?

Global Presence

Operations in 180+ countries with a network of compliance experts.

Customs & Regulatory Expertise

99% first-time customs clearance success rate.

Industry-Specific Solutions

Trusted by IT, telecom, healthcare, aerospace, and enterprise businesses.

End-to-End Compliance Management

No need for a local entity—TLS takes full responsibility.

Transparent Pricing & Reliable Execution

No hidden costs, full trade visibility.

INDUSTRIES WE SERVE

Data Centers & Cloud Providers

Global IT hardware shipments & installations.

IT & Telecom Companies

Seamless cross-border tech deployments.

Medical & Healthcare Industry

Compliance-driven medical equipment imports.

Aerospace & Satellite Industry

High-tech equipment trade facilitation.

Enterprise & Multinational Corporations

Hassle-free global trade expansion.

HOW WE WORK?

01

Step 01

Pre-compliance check & regulatory approvals

02

Step 02

Importer of Record (IOR) / Exporter of Record (EOR) setup

03

Step 03

Customs clearance & tax/duty management

04

Step 04

Global warehousing & final-mile delivery
